-

Professional Experience

Software Developer

ABC Tech Solutions, City, Country

June 2023 – Present

- Developed and maintained web applications using React and Node.js
- Built RESTful APIs to support front-end functionality
- Collaborated with cross-functional teams to define and implement new features
- Improved application performance by 20% through code optimization
- Participated in code reviews and ensured adherence to best practices

Junior Software Developer

XYZ Innovations, City, Country

May 2022 – May 2023

- Assisted in developing scalable backend services using Python and Django
- Wrote unit and integration tests to improve code reliability
- Fixed bugs and enhanced existing application features
- Worked in an Agile team, participating in daily stand-ups and sprint planning

Education

Bachelor of Science in Computer Science
University Name, City, Country
Graduated: 2022

Projects

Task Management Web App

- Developed a full-stack task management system using MERN stack
- Implemented user authentication and real-time updates

E-commerce API

- Designed RESTful API for an online store using Django REST Framework
 - Integrated payment gateway and order tracking features
-

Certifications

- AWS Certified Cloud Practitioner (Optional)
 - JavaScript Algorithms and Data Structures – freeCodeCamp
-

Soft Skills

- Problem-solving
 - Team collaboration
 - Time management
 - Communication
-

If you want, I can tailor it to a specific tech stack (Java, frontend, backend, etc.) or format it for a specific country.
